EDUCATION

Gyan ganga institute of technology of science

Master of Computer Application

Jabalpur, MP

Aug. 2023 – May 2025

MGP College

Bachelor of computer science

Narsighpur, MP

Aug. 2019 – May 2021

EXPERIENCE

Associate Software Developer Intern

Mavask Pvt. Ltd.

Feb 2025 – Present

Jabalpur, MP

- Built a multi-auth e-commerce platform for fresh vegetables and fruits.
- Developed school modules: class timetable, teacher mapping, and student and driver attendance.
- Designed dashboards with ApexCharts for finance, analytics, and KPIs.
- Integrated OpenAI API for AI features with real-time responses using Laravel Reverb.
- Optimized components using service classes, clean architecture principles, and Eloquent ORM.
- Created responsive UI with dark mode support, tabbed popups, dropdowns, and modals.

PROJECTS

Sub-G E-Commerce Platform | *Laravel 12, Livewire v4, Alpine.js, Tailwind CSS*

- Built multi-auth role system (Admin, Manager, Customer) for secure access control.
- Implemented real-time cart updates, product filters, and order management with Livewire.
- Designed admin dashboard for product control, invoices, and user analytics.
- Developed responsive mobile-friendly layout with modern UI patterns.

AI Assistant Integration | *Laravel 12, Livewire, OpenAI API, Laravel Reverb*

- Integrated OpenAI APIs to enable AI-powered features like smart suggestions and dashboard assistance.
- Implemented real-time streaming answers using Laravel Reverb and WebSockets.
- Built interactive chat interface inside admin panel using Livewire events.
- Enhanced user productivity by offering contextual AI responses directly within the UI.

Smart Hair Wig & Beauty Website | *Laravel 12, Tailwind CSS, Livewire, MariaDB*

- Built a niche service website focused on hair patching, wigs, and hair replacement systems.
- Implemented a product catalog with filters for categories like men's wigs, chemotherapy wigs, and accessories.
- Designed booking and contact modules to manage user inquiries and generate leads.
- Created a fully responsive UI optimized for visibility and client engagement.

React Portfolio Website | *React, Tailwind CSS, Framer Motion*

- Developed a fully responsive portfolio website featuring a donut chart with category-wise skill breakdown.
- Integrated dark/light mode with smooth transitions using Framer Motion.
- Showcased projects, resume, and contact form using modern UI elements.
- Optimized for SEO and mobile responsiveness to enhance user engagement.
